**BIRTHDAYS: Michael Barsz, JaKob Goennier, Anusha Koka,
Joanna Morfin, Baleigh Myatt, Aren Olarita, Martin Renteria,
Jackson Siebold**

Student Announcements:

Ladies and Gentlemen, the next Hemet high theater production will open this coming Thursday and have performances Friday and Saturday. The Mouse that Roared is a hilarious play about a small country that ends up being much more powerful than it looks! Tickets are \$5 for a great evening of entertainment. We hope to see you at the show!

There are several Native American Scholarship opportunities available for students who can prove their Native American heritage. Go to: www.bie.edu/ParentsStudents/Grants, www.littleeaglefree.org, www.walkingshield.org/education.shtml

Good News! We have extended the deadline for entering the Poetry Contest until next Friday, April 21st. For more information about the contest, see Mrs. Diggins or Mrs. Rose in the Library. Bring you poem to the Library!

Attention students: The deadline to complete your Adult Education classes is May 11th. Time is running out and some of you still have far to go. Buckle down and finish strong, Bulldogs!

The nomination window for the Champions for Character Award is now open. You'll need your coach's nomination to qualify. See Grace Edwards in the Athletic Office for more information.

Hey Seniors! As of Monday, April 10th, the senior contract is officially being enforced. Contract violations will result in exclusion from all senior activities, including prom and the graduation ceremony. Make good choices!

Attention All Students! The Hemet High School Engineering Program is looking for a few good Engineers! If you are interested in Environmental Sciences, Aerospace Engineering, or Architecture - we have the program for YOU! Hemet High School offers a variety of Engineering program choices which are designed to introduce you to the REAL WORLD of Engineering. Whether you are in Introductory Engineering, learning about the design process and how it applies to everyday projects; in Principles of Engineering, learning how to apply the design process to various projects and real world challenges; in Environmental Sustainability, learning how to design clean water resources, recycle materials, and make biofuels; or in Civil Engineering, learning how to build skyscrapers - you will be learning valuable and interesting concepts that will stay with you forever! See Mrs. Foley in Room 820B to learn more about the program OR stop by to see your counselor and sign-up today!
